## The Ritual On Weylyn Island Activation Code And Serial Key For Pc

Download ->->-> <http://bit.ly/2NGM8wC>

### About This Game

In the not so distant past, on a remote Pacific North West Island, 22 year old, Moira Weylyn has come back to her Grandfather's property to meet her few remaining family members and witness the reading of his last will and testament.

Once landing on the remote North West Island property, she discovers her family has disappeared and a sinister evil has awakened on the island —an evil that begins with a neo-pagan cult, and ends with something far more dangerous ready to consume the world. Moira realizes her very fate lies in solving the larger mystery at the heart of Weylyn Island -a place with an ancient, dark history.

Inspired by classic horror movies, The Ritual on Weylyn Island is a combat-free, story-driven game. The main objective of the game is to find your family, collect information and stay alive long enough to unravel the evil plot that surrounds your bloodline.

During the game you can expect to do the following:

- Traverse the vast island and explore its richly-detailed, unique and treacherous environments.
- Solve and complete small puzzles and objectives to progress through the story and reveal what lies ahead.
- Discover and Protect Family and loved ones as you find them during the game
- Collect tapes and clues left by your Grandfather that add additional layers backstory to the dark tale.

---

- Survive the island, as well as the twisted cult members and their demon-possessed followers to reach the end alive.

Title: The Ritual on Weylyn Island

Genre: Action, Adventure, Indie

Developer:

zemaGamez

Publisher:

zemaGamez

Release Date: 4 Dec, 2015

b4d347fde0

English,French,German,Japanese,Russian,Simplified Chinese,Italian

---

Weylyn island is a fun short horror game with some scares. The player assumes the role of Moira Weylyn one the 5 members of the family to inherit the island, that is now occupied by cultists. I reccomend to those interested to wait for a sale on this one its not worth buying at the full price. Ending may dissapoint some players but honestly i didnt really mind it at all.. Game was bad when I bought it, and it's even worse now.

---

great game!! Terrifying sometimes!. I would like to point out that this review reflects the early access version of the game and in no way represents the final product.

The game concept is good. The voice acting is surprisingly decent for an indie developer and the story has a lot of potential. The controls are a little clunky and the lack of an options menu for anything is a tad disappointing, especially when it comes to gamma settings (I never really found a need for the flashlight in my game play).

The game is supposedly stealth based, but the linear layout, invisible walls and enemies that tend to move faster than you make the stealth next to useless. This is a shame, I would love to have stealth work properly in this and have tried to in some area, but the enemies seem to know where you are at any given time as long as your in range. The best option is to just run past them, even if you get hit, it doesn't seem to do much which takes away from the hectic feel that a horror game should have.

On a plus side, the graphics aren't bad, infact they remind me very much of Vampire: The Masquerade, and the cut scenes are very smooth.

The story is probably the games strongest point in my personal opinion. It's very reminiscent of a B movie, much in the same way as Evil Dead (the original), the Wickerman, and so on. All of which I really enjoy.

Would I recommend this game currently? Thats a toss up. The developers seem active and want feedback, the game itself isn't much, and it does have a lot of potential for a very nice finished game. There are lots of bugs still in the game, nothing overly concerning and most of them seem silly if anything. In the end the choice is yours to make. As for me, I'm glad for the purchase and look forward to seeing it polished into the gem it could be.. its an ok game and the story is good but... it is really hard to use the controls and this game seems to be still in development..it does need alot of improvments....this game is ok...now after a bit of playing again....but extremely glichy and story...boring...sorry horror gamers. The game had potential, but the backtracking and detours kills the experience... like many generic horror games these days. Making the game not particularly scary nor fun, just tedious.

At least they tried though unlike most indie horrors these days. The acting isn't too bad and the overall design is pretty good. Unless you're completely new to these types of games, give it a miss.. The Ritual on Weylyn Island is an interesting concept off the bat. Cultists on the island where your family is gathering to mourn the passing of an estranged grandfather? An interesting idea. As good an idea as it is, the game really falls short of being able to call this a game. Gameplay aspects were straight forward, though the picking up triggers could be a little touchy. The actual story was pretty lacking in really making this feel like a game. It sort of was more akin to a slight quicktime-ish event walking simulator. It had a great concept, but it just didn't really get pulled off in a satisfying way.. a satisfying experience provided by a professionally developed adventure game. Praise to the devs for embedding well thought out automated savepoints, hopefully this will be noticed by other houses that keep on failing us time and again on this point! Definitely worth the download, play along the underworld series. Very immersive. Fun short, creepy game with lots of atmosphere. Even if you see themes and tropes often used in other horror games, if you like story, there's plenty of fun here since it's done well, and the bottom line for the player was fun.. Interesting story. Nice graphics and sound. Runs well.

One of the few Early Access game I would definitely recommend! Can't wait to play more :)
